PROFESSIONAL SUMMARY

A highly motivated finance and economics student with demonstrated expertise in finance and public policy. Seeking to leverage advanced analytical skills in a challenging role within consultancy to contribute to managerial, financial and ESG solutions. Recent CFA L1 exam taker.

EDUCATION

Bachelor of Arts

Expected 2027 June

Istanbul University, Istanbul, TR

- Business Administration in the Eight Semester with an AA on Python, R, and MIS classes. High participation in Finance and Economics.

EXPERIENCE

Intern

Jan 2026 - March 2026

Globalturk Capital, Hybrid

- Conducted market research and preliminary financial screening to identify potential M&A targets, deal origination lists, supporting the firm's cross-border deal origination efforts.
- Assisted in the preparation of pitchbooks, information memorandums, and valuation materials by aggregating financial data for comparable company analysis.

Teaching Assistant, Data Visualization in Python

Jul 2025 - March 2026

Istanbul University, Hybrid

- Engineered a low-cost, private cloud computing solution (Docker) for the class and led TA activities to improve student understanding of cloud workspaces that helped over 40+ students enrolled the class.

Director of Consulting

Aug 2024 - Present

180DC Bologna, Bologna, IT

- Co-led the establishment of the Bologna branch, defining strategic direction and operational frameworks for the non-profit student consultancy.
- Oversaw multiple national and international consulting cases as an executive director consultant for the branch.

Sustainable Finance and Investment Banking Trainee

June 2024 - Aug 2024

Akbank, Istanbul, TR

- Conducted research projects on green economics, valuation, and sustainable finance, focusing on private real estate funding solutions for retrofitting existing building stock.

LEADERSHIP

Founding President, Head of Data Science Committee

Feb 2024 - September 2026

IU Finance Club, Istanbul, TR

- Founded and led the club to serve as a pipeline connecting students to careers in finance, data analytics, and audit markets.

PROJECTS

CFA Institute Local Research Challenge

2023 - 2024 Term

Istanbul University Research Team Member, Istanbul, TR

- Analyzed target company (CCI) over three months, developing business model interpretations, financial forecasts, sustainability figures, ESG scores, and a general pricing model.

LBO Hostile Takeover Deal Powered with SHaP

Jan 2024 - Dec 2024

- Created eight different DCF models for Is Bankasi and its subsidiary companies, three different LBO scenarios, seven different models of interventions from agents, and conducted 150,000 monte carlo simulation trials on a bid war at a hostile takeover.
